

ALEX FÖLDVÁRI

Frontend / Fullstack Developer
(Angular, React)

About Me

Frontend / Fullstack Developer with 3+ years of professional experience, primarily using Angular and TypeScript.

Over 10 years of continuous involvement in software development, progressing from self-driven learning to production-level systems.

Experienced in building scalable web applications, REST API integrations and automation solutions in Scrum environments.

Detail-oriented and reliable developer seeking long-term opportunities in Switzerland.

AWARDS & ACHIEVEMENTS

Óbuda University - 62nd Scientific Students Conference (11/2025) - 1st Place

- Digitalization and Technology Trends Section
- Topic: *Comprehensive digitalization and automation of hospitality venues using an artificial intelligence-based software system*

EXPERIENCE

Fullstack Developer / Technical Lead

Dynex Kft – Budapest, Hungary

2025/05 – Present

- Fullstack development and configuration of GoHighLevel-based systems for multiple client projects
- Design and implementation of customer-facing web applications (ordering, booking and reservation systems)
- Development of visual reservation systems with real-time table status and custom editors
- Integration of AI-based solutions, including chatbots and voice assistants via custom webhooks (Vapi.ai)
- Creation of automation tools for agency-level platform configuration and data setup
- Technical coordination of development activities including requirement analysis, task planning, allocation and review of implementation results

Frontend Developer (Angular)

HelixLab Kft, Pécs

2022-01 / 2024-03

- Development and maintenance of Angular-based frontend applications in a Scrum-driven environment
- Implementation of UI components based on functional specifications and design plans
- Integration of frontend applications with REST APIs and endpoint management
- Development of business features including PDF generation, invoicing and email templates
- Integration of third-party tools such as Google Drive, Google Chat and Smartsheet, including custom statistics and editing features
- Bug fixing, performance improvements and collaboration using GitHub and Jira

LANGUAGE

- Hungarian (native)
- English (B2)
- German (Basic / A1 / Learning)

EDUCATION

BSc: Business Informatics

Obuda University - Budapest, Hungary

2024-09 / --

OKJ: Software developer and tester

Baranya County SzC Radnóti Miklós Economics

Technical School - Hungary

2022-09 / 2024-05

Partial Qualification: Office IT Specialist

Baranya County SzC Radnóti Miklós Economics

Technical School - Hungary

2018-09 / 2022-06

Graduation: Economist of Information Technology

Baranya County SzC Radnóti Miklós Economics

Technical School - Hungary

2018-09 / 2022-06

Course: Software developer

HelixLab Kft - Hungary

2021-09 / 2022-03

Course: Frontend developer

HelixLab Kft - Hungary

2021-01 / 2021-07

Certification: ECDL

Neumann János Computer Science Society -Hungary

2018-11 / 2019-05
